

AA Retiree Medical

November 17, 2020

Dear Grey Eagles Friends,

This will be the final update about 2021 Retiree Medical. While we were focused on the change affecting legacy AA pilots who retired prior to 11/1/2012, **the information we have gathered can also be useful for younger members** who are approaching age 65 or are already on Medicare. I am attaching a briefing guide especially for those who are affected by the AA Retiree Medical change for 2021. Again, much of it applies to our younger members. Please avail yourself of the following information.

Click on:

[Information Websites](#) - For a list of links to a variety of websites to help understand Original Medicare vs. Medicare Advantage plans, Medigap plans, how APA SMP (SupMed) and Tricare For Life (TFL) work with these plans and drug coverage.

[Zoom Meeting Recording](#) - For a 90-minute video recording of a discussion last Friday with about 40 GE members on general questions, APA SupMed and Tricare For Life.

[Briefing Summary](#) - 2 page Summary on General APA SupMed and Tricare topics

[All Postings](#) – Above plus other files of interest to pre-11/1/2012 Retirees affected by the recent change.
